

Dear Stakeholders, Supporters, Donors,

My name is Debbie and I am the parent of a child who fought a battle with cancer for 8 years. Each year, Matthew's favorite trip was to go to Sebring with Zoeller Ministries and ride shot-gun in the race cars with the drivers / trainers. It is a wonderful, relaxing weekend of camaraderie, interaction, adrenaline, and fun. What a great escape from the everyday life of clinic appointments, hospital stays, chemo treatments, needles, stares, judgment, and emotional struggles, as well as physical struggles. Everything is done for us there; the volunteers are beautiful, caring, and helpful.

Even though Matthew lost his battle with cancer, his adventures with Zoeller Ministries are unmatched by any other organization! If I may encourage you to donate to one organization that truly makes a difference in the life of a sick child, this would be it. It's the only vacation we got every year because of the cost of Matthew's care. Please consider making real dreams and desires of the kids come true by donating to this phenomenal organization. The gratification of being a stakeholder in making a difference in the life of a child is incredible.

Debbie

Above is a letter that I received from Debbie, about her son Matthew and how she feels about the "Kids Racing For Life" program. We have several parents of "Kids" that have lost their battle with cancer, that return every year to assist us with our event. You have become and are an integral part of the program by your donations and support of the Ministry. Just thought you might like to see what the event means to the parents of these "Kids". If you want a DVD of the 2012 event please contact Stephen Zoeller and I will send you one as a gift for helping out.
